LEAGUE CANNOT EXIST WITHOUT UNITED STATES

Argentine Delegate in First Speech of Session Today.

Geneva, Nov. 17.—(By Associated Press)—A plenary session was held by the assembly of the League of Nations this morning to consider a report from the council of the league relative to its activities since its formation.

The work of the assembly meeting began speeding up today with the organization of the six committees appointed at the opening session Monday and the election of chairmen.

Honorio Pueyrredon, head of the Argentine delegation, took the floor first after the opening of the assembly session today. Speaking in French, he reviewed the attitude of Argentina during the war. He followed this by declaring that the success of the league required a most complete membership, referring to the necessity, in his view, of the United States coming in.

MAYBE HE'LL STOP HAZING

Washington, Nov. 17.—Following a series of hazing episodes and other breaches of discipline at the United States Naval Academy at Annapolis, described by authorities as the "most disturbing in years," Rear Admiral Henry B. Wilson has been appointed superintendent of the academy. Wilson succeeds Rear Admiral Scates.

POSTPONE COMMUNITY CONFERENCE FOR CO. HOLD CITY MEETING

Dec. 15 Will Be Day Devoted to Dixon's Welfare.

One week ago the committee of the Chamber of Commerce on County Community Conference of which W. F. Hogan is chairman met, planned and announced that event. The next day word was received from Professor Hieronymus, who has charge of the state-wide movement, that these conferences had to be postponed and would be held early next summer.

Last evening the committee met again to decide what was best to do under local conditions. Unanimously they decided that a community conference for the city of Dixon would be a fine thing to substitute for the proposed county conference. Mrs. Harry Warner reported to the rest of the committee that on December 15 the ladies of the Phidian Art Club have arranged for a speaker to give a lantern slide talk on Child Welfare. The possibility of building around this meeting a program for a day's conference readily appealed to the committee. It was, therefore, decided to arrange a program for that day which would appeal to all the varied interests of the community. Many individuals and various organizations have ideas which would be of interest to the community at large if others knew about them. A program could be arranged which would allow for each of these subjects to be presented before the public. Two or three speakers of note could be obtained to speak on subjects of some length which are well known to be of general interest. The committee will at once proceed to arrange for speakers and attempt to learn the subjects which might be of interest for a round-table discussion.

Twelve or fifteen citizens from different parts of the county will be asked to co-operate with the Dixon committee in planning the Community Conference at a later date. The members of this committee will be especially invited to attend the Dixon Conference in order to get a better vision of the possibilities of the Community Conference for a Better Community Life.

Steamer, 240 Miles Out, Calls for Help

New York, Nov. 17.—The Spanish steamer Yute, bound for Dunkirk from Baltimore and 240 miles east of Cape May, N. J., sent out a wireless call for help early today. The naval communications office has announced. No more on her condition is available at 9:45 a. m.

The Yute is an iron freight steamer of 4880 tons gross register, built in 1914 at Barrows, Eng. Vessels here are usually crewed by 45 or 50 men.

Dr. and Mrs. Sickels Back from Northland

Dr. and Mrs. E. A. Sickels arrived home last night from their camp on Bowstring River, Itasca County, Minn. Mr. and Mrs. Bert Raymond, who visited them, returned several days ago. Chas. Sheffield remained in the north woods for the deer hunting.

Dr. and Mrs. Sickels stayed in the north woods until all the waterways were frozen tight and the small game hunting was over. Game was plentiful in that territory this fall.

Dr. Sickels is resuming his practice in Dixon after his month's vacation.

German Merchants Seek Japan's Trade

Washington, Nov. 17.—More than 10 German merchants have arrived recently in Japan to solicit trade, according to advices to the department of commerce from Kioto. They met with little hostility, it was said; anti-foreign feeling being confined largely to Tokio and Yokohama.

SAYS U. S. MUST GET SAME RATES AS OTHER GOVTS

While Telegraph Co. Refuses to Accept Rate Messages.

Washington, Nov. 17.—(By Associated Press)—A veiled threat that the permits granted for the landing of Western Union cables in the United States will be revoked unless the company continues to accord the American government the same privileges that it accords the British and other governments in handling cable messages is contained in a formal statement issued today by the state department.

The Western Union company, says an announcement issued by the State Department has not only refused to accept any government cable messages, without pre-payment of tolls, but has also refused to carry at the reduced government rates messages originating outside of the United States.

"Obviously," said the department's statement, "the United States could not be expected to allow the Western Union company, an American corporation, to charge for its messages twice the rate charged, for example, the British government, nor accede to the requirement of ordinary practice of business with respect to periodical settlement of accounts, shall be set aside in dealings with our government."

Municipal Ownership Utilities is Favored By Basic Law Session

Springfield, Ill., Nov. 17.—Municipal ownership of public utilities was favored by the constitutional convention this morning in the adoption of two amendments to the revenue article.

Heated argument, however, was started over the third amendment, two delegates who had voted affirmatively gave notice that they would call for re-consideration. The three call for re-consideration. The three amendments, three different sections, were drafted by Morton D. Hull of Chicago.

"They would provide that 'the legislature may authorize any city to issue bonds, in excess of any limitation of indebtedness otherwise prescribed by this constitution to an amount not exceeding 15 per cent on the full value of taxable real property.'"

Debate got warm when Delegate Frank Quinn of Peoria introduced an amendment which would confine the financial liability of a city operating a utility to the earnings of that utility. Answering Mr. Quinn, Delegate Hull declared that unless a city takes the full responsibility for payment of its public utility bonds, the cities will never be able to sell their bonds, or get enough money to start in business.

Elks Big Bazaar to Open Saturday Eve

Saturday evening the annual Elks' bazaar opens at Rosbrook's hall to continue for one week, concluding on Saturday evening, Nov. 27. The committee in charge have completed their plans for the fair this year which promises to surpass those of former years. The Elks' bazaar for many seasons been an annual affair and is one of the most popular events of the season.

THE LONE DUCK NEARS COVER

NO VIOLENCE IN DEATHS OF TWO CHICAGO WOMEN

Confession of Youths Who Were with Actresses.

Chicago, Nov. 17.—Confessions from the two men held in connection with the death of the two actresses, Mae Ramey and Lillian Thompson, found in Grant Park Sunday morning have cleared up nearly all the details, police said today and have established that the girls died from alcohol and exposure and without violence.

Police are searching for two other men who are said to have been with the girls early Saturday evening. According to the confessions, given out by the police, the two men being detained met the girls after the latter had secured the liquor which played the chief part in causing their death. These two men, their confessions declare left the girls at their own request in Grant Park, and it is believed by the police that the girls wandered there until overcome by exposure.

Investigation by the police disclosed, it was said, that the girls had partaken of "lemon extract" purchased near their home Saturday night, besides the other liquor which chemical examination disclosed in their stomachs.

Two nineteen-year-old youths are held in connection with the tragedy. They are Marcus Brumberg, and Harry Jorgenson.

Police indicated today that they accepted the story of the two youths who declared they had not given the young women any intoxicants.

GREEK ARMY, LOYAL TO VENIZELOS, MAY ESTABLISH REPUBLIC

Smyrna in Asia Minor is Said to Be Favored Spot for Govt.

Athens, Nov. 17.—(By Associated Press)—Rumors that it is possible the Greek army, which is supposed to be loyal to former Premier Venizelos, may create the Republic of Smyrna in Asia Minor, are current.

The present regency of Admiral Coundouriotis has been recognized by the opposition. It is probable the cabinet selected by the leaders of the dominant party in Greece will hold office temporarily until a plebiscite is held at which the people will vote upon the return of former King Constantine. It is also believed the opposition will make efforts to determine the views of the outside world relative to the results of the election.

There was a panic on the bourse when it became certain that the Venizelist government had been defeated, the United States dollar doubling in value. The city is quiet, and the parliament house is occupied by troops.

VENIZELOS SEES REASONS

Athens, Nov. 17.—(By Associated Press)—Reasons for his defeat are said by former Premier Venizelos to be weariness of the people with politics, their desire for a rest and for return of soldiers from the front, and emphasis placed by opponents on the fact that he was having Greece's 100th anniversary.

DIXON MAN IS GRAND MASTER OF ODD FELLOWS

Dr. C. A. Robbins Was Given Highest Office Today.

Springfield, Ill., Nov. 17.—A downstate man, J. D. Phillips, of Green Valley, was elected grand master of the Illinois Odd Fellows this morning over two Cook county candidates. His vote was 668 to 66 cast for Nelson Foley, of Chicago, and 66 cast for the past grand chaplain, O. F. Jordan, of Evanston.

This election also started a boom for Grand Representative James Ewing Davis of Chicago, who by acclamation of the convention was made Illinois' candidate for next grand sire, the head of the sovereign grand lodge Mr. Davis was re-elected. Other officers named were as follows:

Grand Master—Dr. C. A. Robbins, Dixon.

Deputy Grand Master—A. L. Yantis, Shelbyville.

Grand Secretary—John H. Sikes, Springfield.

Grand Treasurer—Melvin P. Berry, Carthage.

Grand Representative—John W. Birney, Bloomington.

Rebekahs to Meet.

The Rebekah state election will be held this afternoon and the Odd Fellows will consider proposed legislation. One proposal would make the annual convention meet a month earlier, and another would have the appointment of the Grand Master's deputies revert to the former custom. At present deputies are named by the grand master in 120 districts in the state, but the old practice had a deputy in every lodge.

Interest will be divided this afternoon between sessions and the big Odd Fellows parade in which it is said more than 8,000 Odd Fellows and Rebekahs will march.

Motor Bus Line in Central Part State

Springfield, Ill., Nov. 17.—Authority to operate a motor bus line from Peoria, along the Illinois river through Ayrville, Massville and Rome to Chillicothe was granted the Peoria White Star Bus Co. by the state public utilities commission today. Permission was also given for \$6000 capital stock.

STERLING WOMAN TRIED TO TAKE OWN LIFE; FAILS

Mrs. Josephine Despain Shot Herself Over Heart.

Mrs. Josephine Despain, 306 Fifth Ave., Sterling, made an attempt to take her own life late Tuesday afternoon when she shot herself about two inches above the heart. At the hospital this morning it was stated she would probably recover.

The woman was found on the floor of the living room of her apartment by two neighbor children, who summoned aid, and for a time the shooting was a mystery to the authorities. Reports to the police by neighbors who had first responded to the calls for aid were conflicting; one woman stating that Mrs. Despain had told her of her wish to die, while two children who found her said that the wounded woman had said "Ollie and them" had shot her.

At the hospital last night, however, she admitted to the attending physician that she had shot herself, but she refused to give any reason for wishing to take her life.

TEXTILE PLANTS CUT PRODUCTION FIFTY PER CENT

All Mills Running on Shortened Schedules Now.

Boston, Mass., Nov. 17.—Curtailment of production which began some months ago in New England textile industries employing 500,000 operatives now has reached a point where the total output is less than one-half that of a year ago, according to estimates made from a canvass today of the great mill centers. In some instances the curtailment runs as high as 80 per cent. A few mills have shut down entirely. The majority have adopted a working schedule of three or four days a week.

Mills that continue in operation on full time with full crews are exceptional. Thus far only isolated announcements of reduction have appeared, and those have been for the most part in small mills where operatives have been presented the choice of a 10 per cent wage cut or a shutdown.

In only one of the big textile mills now operating, that of the Lawrence Manufacturing company in Lowell, known as the largest hosiery plant in the world, has there been a wage cut. The mill recently resumed production after a shutdown with a wage reduction of from 20 to 33 per cent. Protests have been voiced by a section of the employees and a union has been formed there but the mill's operation on a short time schedule has not been interrupted.

The men were trapped three miles back in the mine when fire broke out yesterday afternoon and cut off their escape from the entrance.

After all other attempts at rescue had failed a tunnel was dug around the burning entry and a start made for the miners. The rescue party, however were forced to come out because of denseness of smoke and gas. Later this morning another rescue party was organized, and armed with gas masks proposed to go to the end of the mine. Little hope was then expressed of the miners being found alive. Officials of the mining company and rescuers expressed the opinion that the men probably had already been suffocated. Three white men and 13 negroes were entombed in the mine. One other negro in the mine was working close to the entrance and discovered the fire soon enough to make his escape. He then spread the alarm. Rescue teams worked desperately all night in the smoldering hope that the men would still be alive when reached.

Huddled together near the blazing entrances of the mine this morning were the wives and families of the entrapped men. They had kept a sorrowful and tireless vigil throughout the night.

Injuries Prevent R. I. Game Sunday

Rock Island, Ill., Nov. 17.—Serious injuries incurred by eleven Rock Island Independents, precluded playing the Canton Bulldogs at Canton, Ohio, next Sunday but the glit-edged sportsmanship of the Canton officials inspired them to allow the Independents ten days to whip themselves into shape in view of the Bulldogs coming here Nov. 28, to close both teams' playing schedules. The Independents are considering several important changes in their personnel and indications are that all reserved tickets for the game will soon be sold.

TWENTY HOURS IMPRISONMENT ENDED TODAY

Bodies of Five Others Recovered; One Still Missing.

Earlington, Ky., Nov. 17.—Ten miners were rescued today from the burning Arnold Coal mine near here. Bodies of five others were recovered. One other person, trapped in the mine, was still missing.

The rescue, effected by tunneling around the fire which had shut off the single entry of the mine, came 29 hours after the flames broke out.

The three white miners among the sixteen entombed are among the dead, all of the rescued being negroes as also the one missing man. The dead: Hugh Mack Perkins, 35, white. Jack Bond, 45, white. Roy Carnes, 21, white. George Andrews, 42, negro. Alexander James, 31, negro. All except Carnes are survived by widows.

Emmett Francis, a 17 year old negro trapped in the mine, is missing, and hope for his rescue alive is practically at an end. It was feared that he had been buried beneath falling slate.

PENN. SENDS AID

Pittsburgh, Pa., Nov. 17.—The mine rescue section of the Pittsburgh station of the bureau of mines when informed of the fire in the mine at Earlington, Ky., immediately ordered a mine rescue car at Seco, Ky. to proceed to the scene of the disaster and give all possible aid in rescuing the entombed men. The car will be rushed to Earlington as fast as the railroad can move it.

Another Hearing on Dixon Phone Rates

(Special to The Telegraph.)
Springfield, Ill., Nov. 17.—The State Public Utilities Commission today set for hearing again in Chicago on Dec. 1 the petition of the Dixon Home Telephone Co. for permission to permanently increase its rates in Dixon and vicinity.

Council Paid Bills; Then It Adjourned

The city council last evening granted the regular monthly pay roll, amounting to \$1187.41 and referred the application of Thomas Powers, who desires to erect an electric sign on W. First St. to the commissioner of public health and safety with power to act. There being no other business to come before the body, adjournment was taken.

NOTE.—The recent increase in rates granted the company, effective as of Nov. 1, were temporary, pending further investigation by the commission.

MAHAN-REED—
On Monday at 1 o'clock at the parish house, Rev. Father Michael J. Foley performed the marriage ceremony which united Miss Anna M. Mahan, daughter of Mr. and Mrs. John Mahan of West Eighth street, in the holy bonds of matrimony to Harry M. Reed of Milwaukee.

The bride was attended by her cousin, Miss Mildred Kline, of Indianapolis, and the groom was attended by the bride's brother, William Mahan.

The bride and her maid of honor were both handsomely attired in tailored suits of dark blue, with hats harmonizing. Their flowers were yellow and white chrysanthemums.

Immediately after the ceremony Mr. and Mrs. Reed left on an east bound train. They will visit for a short time in Aurora and Chicago, and will then be at home to their friends in Milwaukee, where the groom is engaged in business.

The bride is a charming Dixon girl whose friends are numbered by her acquaintances. Mr. Reed is an industrious young man whose many friends congratulate him. The best wishes of all are extended them in their new home.

On Sunday evening at the hospitable Mahan home on Eight street, a 6 o'clock dinner was served to a company of friends, about thirty-five being present. The decorations in yellow and white were most attractive, the bride's flower, the chrysanthemum, being used. After the dinner, a delightful social evening was enjoyed. The bride has been the honored guest at a number of pre-nuptial courtesies within the last few weeks, and has received some elegant gifts in silver, cut glass, aluminum, linen, etc.

FOR THRALL FAMILY—
On Thursday evening at 8 o'clock at the M. E. church a reception will be given Dr. Victor Thrall and family. Dr. Thrall has but recently accepted the pastorate of the church, and this will be a get-together meeting for the pastor and his family, and the members and friends of the congregation. A large attendance is desired. Everyone is welcome. There is to be a musical program and a pleasant time for all.

EGG SAUCE
3 tablespoons butter
2 tablespoons flour
1 1/2 cups water
1/4 teaspoon salt
1/4 teaspoon pepper
1 egg (yolk)
2 hard-boiled eggs
Melt butter, stir in flour, salt and pepper and slowly add water, stirring constantly. Add yolk of egg well beaten and hard-boiled eggs cut in rather thick slices. Do not cook after adding yolk of egg.

Patience is a most necessary ingredient for every cook to always have at hand.

One of the easiest ways of saving time and labor in preparing certain foods in large quantities.

Most women hate to peel potatoes but when once started would just as soon keep on and do a whole lot. There are so many ways of using cold potatoes, either plain boiled or mashed, that there is no risk or waste if one has some on hand.

Plain boiled potatoes can be diced and warmed over in cream sauce, they may be simply sliced and fried, or diced and fried in crisp cubes, diced and reheated in milk and butter in the oven.

Mashed potatoes can be made into

croquettes, and fried in deep fat, made into little flat cakes and fried or sautéed in the frying pan, beaten up with eggs and made into a soufflé, reheated as mashed, used with fish in croquettes or made into cups and filled with another vegetable.

If one has cooked potatoes on hand half an hour is saved in the preparation of a meal. Try it!

Menu for Tomorrow.
BREAKFAST—Sliced bananas, uncooked cereal, soft-boiled eggs, toast, coffee.

LUNCHEON—Creamed fish in potato cups, hot rolls, grapes, preserves, tea.

DINNER—Fried chicken, baked sweet potatoes, creamed onions, apple-celery-nut salad, cranberry pudding, coffee.

My Own Recipes.
Little, tiny onions are nicest to cream, those not any larger than a marble. Onions should always be cooked in an uncovered pan.

CREAMED FISH IN POTATO CUPS.
1 1/2 cups cold flaked fish.
1 cup white sauce.
Mashed potatoes.
Shape the cold mashed potato into cups, brush over the outer surface of the cups with the white of slightly beaten egg. Fill with creamed fish and put in a moderate oven to heat the potato and brown.

CRANBERRY PUDDING.
1-3 cup butter and lard mixed.
1 cup sugar.
2 eggs.
3 cups flour.

GIANTS BUY INFELDER.
St. Paul, Minn., Nov. 16. — Joseph "Goldie" Kapp, infelder, has been sold by the St. Paul baseball club to the New York Giants for \$15,000. The local club will receive a pitcher and an infelder as part payment. St. Paul purchased Kapp from the Cincinnati club for \$1,000 last spring.

How Do They Do It?
Seven years ago, you might have heard someone say:

"The Smith's have a new player piano. He only gets \$20 a week at the Sandusky cement factory. How do they do it?"

But they don't talk like that today! For nowadays, the Smiths, the Browns, or the Malinsky's know what a power for good flows from a splendid Player Piano like the GUNBRANSEN at Miller's. And if YOU have been deferring the day when your family can enjoy the finest piano Music of this age, without musical-instruction, you are denying yourself far more than you can imagine.

Make up your mind NOW to look into the Miller Player Piano proposition—there is an instrument here for you—and the terms will be made convenient. Let's send it over for Christmas. Make 'em happy!

FANCIES OF A CHILD

Children are naturally imaginative.
The fancies of a child are many and
varied and serve a proper role in the
intellectual and emotional develop-
ment.

Unfortunately, the fancies may as-
sume an improper trend fraught with
serious consequences. This fact is
brought out when it is recalled that
children as a rule do not harbor re-
sentment, but naturally attempt to
settle their quarrels by argument.

On the other hand, a number of
children do harbor resentment when
their power of self-assertion has been
stunted through following the lines of
least resistance in the settlement of
childish disputes and discords instead
of meeting them frankly and squarely.

The children of this type are given
to so-called day dreams and reflec-
tions over supposed wrongs. They
weave fancies about supposititious in-
juries which give a species of satis-
faction and contentment.

These fancies, unless properly di-
rected, ultimately become fixed habits
of thought, which make for poor men-
tal adjustment in after life. For this
reason, any system of training chil-
dren should take into consideration
their imaginative faculties and the
tendency to build air castles and
weave fancies.

When properly controlled these are
healthy substitutes for the whimsical
and capricious longings of childhood
that may ultimately result in mental
maladjustment.

For this reason the real or fancied
wrongs of children should be settled
without delay, the discomforts and
discords should be smoothed to the
satisfaction of the child and he should
be encouraged to make confessions of
his feelings and desires.

THE BIGGEST FARM

Three years ago the country was
startled by the news that Wall Street
had gone into the farming business.
The Morgan firm put up the money
for a 200,000 acre Montana farm; the
land was to be reclaimed and intro-
duced to the plow for the first time.
Many persons said Wall Street would
fail at farming.

This year has been the first real
test of the venture. Nearly a million
bushels of wheat have been threshed
and considerable flax and oats. In all
52,000 acres were cultivated. Within
five years it is believed the whole 200-
000 acres will produce food.

Morgan is making good as a food
producer.

But the greatest share of credit
should be awarded to Tom Campbell,
a "regular" farmer, who conceived
the idea of interesting Wall Street
money in what was to be (and is)
the biggest farm in the world. Campbell
had two other ideas: the all-machine
farm and the best-seed-to-be-found
program.

On this biggest of farms there isn't
a horse, nor a mule, not even a dog,
no animal other than human. Every-
thing is done by machinery. By the
exclusive use of man and machine
Campbell gets 8000 bushels of wheat
per man per season, which will make
up into quite a few loaves of bread!

Living in a machine age Farmer
Morgan also discharged some other
moth-eaten farm habits. He has a
bookkeeping system on the farm. He
keeps track of every dollar, every
acre, every man and every machine.
The biggest farm is a business; not a
thing of guesswork and trusting to
luck.

"AND A LITTLE CHILD—"

There are three and a half millions
of little children in central and south-
eastern Europe, who are the victims
of the most merciless war of all time.
Hollow-eyed, emaciated, starving,

they are holding up their shriveled
arms in silent supplication to the peo-
ple of the west of America, pleading:
"Help us, or we die." Cold, hunger,
nakedness, starvation are the things
they face. Helpless little kiddies,
much like your own, they are dying,
dying.

But big souled Americans, at an ap-
peal by Herbert Hoover, have come
to their aid. They are about to raise
\$23,000,000 to save these children. And
everyone may contribute.

They say:
"Ten dollars will provide the coat
and boots and stockings and one meal
a day for one child this winter. We
urge everyone to give quickly as many
of these units as possible, to buy for
themselves that precious and priceless
thing, the life of a little child. Buy
as many as they can, and every one
will be a shining star in an eternal
crown. It was the Divine Love of
little children who came to earth as
a little child, and who reigns now as
the King of Glory, who said: 'Inas-
much as ye have done it unto one of
the least of these ye have done it unto
me.' Let us have a great outpouring
of love and helpfulness in the name of
Him who said, 'Feed my lambs.'"

The Literary Digest has started the
fund with \$25,000. President-elect
Warren G. Harding has sent his
check for \$2500. Every gift will be ac-
knowledgeed if sent to the Literary Di-
gest Child-Feeding Fund, 354-360 4th
Ave., New York.

MORE "GAS" IN SIGHT

When man discovers that he needs
something, indulgent old Mother Nature
smiles and says:

"All right, Boy, here it is!"

Man has been worrying himself
late about the impending famine of
gasoline.

Scientists figured it all out—just
how many more days the world's vis-
ible supply of crude oil would last. It
sounded like the final gasp of a run-
down battery when the engine won't
turn over at 12 below zero.

Now comes the news—that the
Mackenzie River region of Canada has
200,000 square miles of land under
which are enormous quantities of oil.

Also—perhaps more immediate
importance—is the activity in the Tar
Sands district of Alberta which is
simply soaking in oil. There are
180 cubic miles of these tar sands,
containing enough oil to supply the
world several centuries, at present
consumption.

The oil strike at Fort Norman, on
the Mackenzie, was made by pros-
pecting geologists employed by the
Imperial Oil Company, a Canadian
subsidiary of John D. S. The head ge-
ologist of the expedition, T. A. Link,
is quoted as saying that this wide
area will develop into an oil field riv-
alling Mexico's big production.

Step on the throttle and trust Na-
ture to furnish the juice!

WHY NOT CHRISTMAS?

In a few weeks the civilized peoples
of the world will be talking of Christ-
mas and its joys. They will be pre-
paring to celebrate the birthday anni-
versary of the Redeemer, who liveth.

A long, long time ago there crept
into the English language an abbrevi-
ation for the word Christmas, that
many feel ought to be eliminated. It
is the abortive "Xmas." Why not
write it out, plainly, "Christmas?" It
is only a few more letters. "Xmas"
isn't satisfying. It doesn't seem to
show the proper respect for an occa-
sion so great.

It is easy to see how the use of the
shorter word came about. "X" hap-
pens to be the first letter of the Greek
word for Christ. The fact that the
letter X is cross-shape also lent color
to its use in the abbreviated "Xmas."
And history tells us that in the cata-
combs X frequently stands for Christ.
But things that are old are not neces-
sarily good.

Is the world in such a hurry that it
cannot stop to write out the full
name? What would the world say if
in some reference to the Savior He
was called "J. Christ?" Sacrilegious,
and correctly so. The cases seem al-
most parallel.

Let's give Christmas presents this
year—not "X-mas" gifts.

When you drive around in other
communities and find the main routes
of travel in such conditions of neg-
lect it makes you wish that every
township had a road commissioner as

BIBLICAL NOTE.

A bashful curate found the young
ladies in the parish too helpful. At
last it became so embarrassing that he
left.

Not long afterward he met the cur-
ate who had succeeded him.
"Well," he asked, "how did you get

you know."

"Indeed?" said the ex-curate. "I

ADVENTURES
OF THE TWINS

by Olive Roberts Barton

WHO THE SCARECROW WAS.

"Who is what he isn't, and isn't
what he is?"

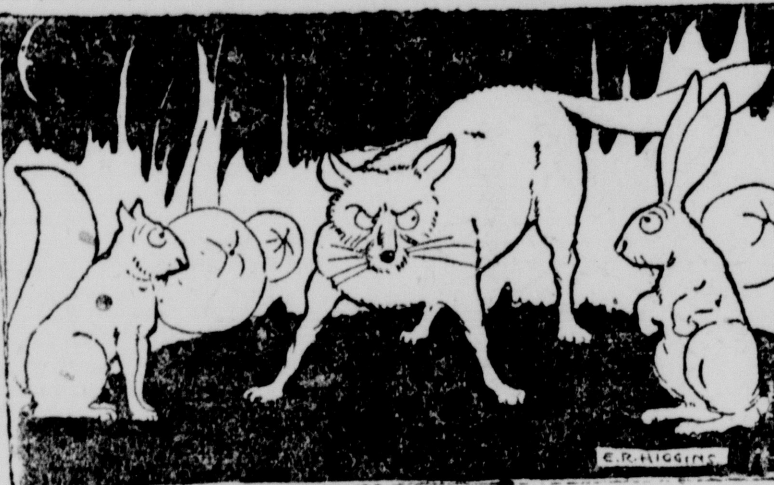

That was the Magical Mushroom's
riddle at the Scarecrow's masquerade
party in the Corn Field.

It was getting pretty late, along to-
ward morning, indeed, and the last
quarter of the hunter's moon was get-
ting so low in the sky that it didn't
look like more than 24 cents, and
didn't give any more light than a
nickel, scarcely. If it was dark when

But all the Mushroom would say to
each one was to keep his eye on the
corn-shock beside him.

Suddenly Mr. Scribble Scratch call-
ed out, "Where's Mr. Scare-crow? He
hasn't guessed yet. Let him guess,
and after that we'll take off our masks
and false-faces and go home. It's get-
ting quite early."

"Here I am," came a voice from be-
hind Cutie Cottontail's corn-shock.
"I'm taking off my mask and I'll be
there in a minute."

Who should step around into full view but Fleet Fox.

the guests came, it was now still dark-
er and nobody could see a thing.

Nobody could guess this last riddle,
either. "I'll give it up," said Cutie
Cottontail.

"Don't give up. Just keep an eye
on the corn-shock beside you," an-
swered the Mushroom mysteriously.

"I give up, too!" called Scamper
Squirrel.

"Squirrel, don't," cautioned the
Mushroom. "Just keep an eye on the
corn-shock beside you."

"We give up. We give it up," said
pretty nearly everybody by and by.

And now what do you think hap-
pened? Who should step around in-
to full view but Fleet Fox. He'd been
masquerading as Farmer Smith's
Scarecrow all evening. No wonder
he wanted it dark! But there was still
enough light left for him to see nice,
plump, juicy Cutie Cottontail, and
sweet, tender, tasty Scamper Squirrel.

"Crrrr!" he growled, jumping into
their midst.

Just wait until you hear what the
twins did.

THE BOOK OF ANN.

OUR AGREEMENT TO BE PAIS
DOESN'T WORK OUT HAPPILY
FOR ME.

"True? What can't be true, Mrs.
Best?" asked Bob. He was spurr-
ing for time, I felt sure, for we had
planned never to let Mrs. Best know
about the attempted theft of the
rings. Of course, Bob wanted to find
out what Mrs. Best had discovered be-
fore he gave her any details of her
husband's escapade.

Katherine Miller hinted at an un-
believable story about Mr. Best. She
sent me to Ann. She said my daugh-
ter needs me immediately!

"Of course she did!" My words had
one meaning for Mrs. Best and some-
thing different for my husband. I
could see that he caught what I im-
plied; a woman could see right
through Katherine Miller even if her
beauty did blind a man—and a very
clever man, too!

"Of course she told you, Mrs. Best,"
I continued. "Please sit down. Don't
worry. It's all over now. And all
right, too!"

"Mr. Best is at liber—I mean he has
started on his trip," said Bob. And
Ann is all right. She is with her hus-
band, you know!"

In bitterness of spirit, I envied Ann
who had a husband who delighted in
petting and comforting her. I yearned
to have Bob shield me from my large
assortment of sorrows. I wanted him
to make a direct effort to console me
when I needed it most. And that was,
obviously, when I was jealous. No
woman ever suffers more than when
she doubts or distrusts her man.

And it is always at such times that
Bob is hardest! His attitude seems to
embody the particular disadvantage of
being loved in the new way, the mod-
ern way of marriage as a business
partnership on a 50-50 basis.

Bob and I had agreed in the begin-
ning of our engaged days that we
would be pals. But in practice, I did
not find that the plan worked out hap-
pily for the woman. I wanted to de-
pend when I felt badly. I wanted to be
a baby like Ann, I wanted to be kissed
and forgiven, no matter who was in
the wrong. And I never wanted all
this tenderness more than I did that
night.

But Bob clung to our pre-nuptial
stipulation as he had done a hundred
times before. I could think what I
pleased—do what I wished—and he
would hold me responsible, just as he
would hold a business partner respon-
sible. And he would let me suffer,
too, without a word of understanding
or sympathy!

I almost hated Ann because she had
a husband who would pet her as I

that Mrs. Grundy will not let them!"

"If by Mrs. Grundy you mean
Katherine Miller, I agree!" I said.

This remark brought Bob to his
feet with a start.

"It's nearly two o'clock, and the
dance music still goes on," he said. "I
think I'll run over to the green for a
few minutes."

"Go with him, my dear," suggested
Mrs. Best. "I'll go home—and up to
my room. I can't face any of the
people—over there—again tonight."

She waved a hand toward the lawn.

"I'm sorry we couldn't have spared
you all this, Mrs. Best," I said. "We
tried to, you know."

"My dear, when you're as old as I
am, you'll stop trying to spare" folks
from any kind of trouble. It simply
can't be done."

Bob and I walked in silence to the
green where the young people were
still dancing. Said myself to myself:
"No, you simply can't spare anybody
from anything! But if Mr. Best had
behaved himself, we would have been
spared half the trouble. And if Bob
wouldn't behave like a bachelor, part
of the time, I wouldn't have a trouble
in the world!"

TEETHING.

At birth, each tiny tooth lies partly
embedded in a cavity in the jaw bone,
surrounded with, and covered by, the
soft tissues of the gum. As baby
grows, the teeth grow also and, if
baby is healthy, they are ready to cut
through the gums at the sixth or sev-
enth month.

Following is the normal time of
teething:

Lower Jaw.

1. Middle cutting tooth, 6 to 9 months.
2. Next cutting teeth, 12 to 15 months.
3. Canine or "stomach," 18 to 24 months.
4. First molar (grinder), 12 to 15 months.
5. Second molar (grinder), 24 to 30 months.

Upper Jaw.

1. Middle cutting tooth, 8 to 12 months.
2. Next cutting tooth, 8 to 12 months.
3. Canine or "eye," 18 to 24 months.
4. First molar (grinder), 15 months.
5. Second molar (grinder), 24 to 30 months.

There are 20 of these first or milk
teeth, 10 in each jaw. As a help in

remembering the baby teeth, recall
that there are as many teeth in the
upper jaw as there are fingers on two
hands; and that a baby has as many
teeth on the lower jaw as he has toes.

The teeth appear in groups. The
first to appear are the lower incisors
or front teeth. Then the upper incis-
ors appear. After that the canine
teeth, then the first and then the sec-
ond molars may be found.

The time of cutting teeth varies so
in different children that it is diffi-

cult to lay down rules for their ap-
pearance. However, a child one year
of age has, as a rule, eight teeth; at
16 months there should be 12 teeth
and at two and one-half years the
child should have the full 20. If the
child has less than this number, there
may be something lacking in the diet.

More than 70 per cent of the avail-
able new water-power in the United
States is west of the Mississippi.

"Y" LADIES HAD GREAT FEED AT ASSN. LAST EVE

Banquet, Classes and Boxing Matches Pleased All.

The scramble supper given by the ladies of the Y in the gym last evening was attended by some 125 ladies and their guests and from start to finish was a success. One would have to go a long way to find a bunch of ladies as full of pep and enthusiasm as those of the Y and they were at their best last evening. Everything was snappy from the first bite of a sandwich to the last dive in the swimming pool and every minute was thoroughly enjoyed by everybody.

Immediately after the big eats a couple of boxing matches were pulled off but no decision was given by the referee in either match. Probably he was afraid they would light on him had he given the match to either contestant. After the boxing matches the gym class performed for the benefit of the guests, who were very much interested in every detail. When everything was over in the gym the crowd adjourned to the bowling alleys and the swimming pool where they finished up one of the most enjoyable evenings most of them have had in some time. Monday is the regular ladies day at the Y and more genuine pleasure and fun is dispensed on this day than on any other in the week. Mrs. C. E. Smith has general supervision over the ladies and it was thru her efforts that the supper last evening was such a grand success.

State Supervision of Marketing Urged By Minnesota Officer

By Associated Press Leased Wire
St. Paul, Minn., Nov. 17.—State supervision of machinery for marketing, and co-operative ownership of retail agencies by farmers are recommended in a report by Hugh J. Hughes, director of the Minnesota department of agriculture, made public today. The report deals with results of an investigation by the department into conditions affecting marketing of farm products.

Co-operative ownership by the farmer of the machinery of marketing at least as far as a point where the farm product loses its identity or where it reaches retail distribution, is offered as the best available solution of the farmer's marketing problem says the report.

Co-operative ownership of retail agencies, such as grocery stores, meat markets, milk depots and similar places is suggested by Mr. Hughes as a practical solution of the unnecessary expenses of living borne by the consumer.

State supervision for the purpose of establishing a fair barter and exchange is held essential.

Cold Weather Brings Egg Famine to Dixon

Dixon is in the throes of an egg famine and probably will be until shipments arrive from Chicago. Grocers were without an egg Monday afternoon and evening and patrons were obliged to wait until a supply be shipped out from Chicago.

One grocer called up on the telephone patrons in the country who have been selling eggs at his store and offered a fabulous price for a few dozen, but his offer was rejected. The arrival of winter and a marked drop in the mercury in the last ten days have put the hens on a strike and eggs are not to be had at any price.

On Monday evening, the regular annual roll call meeting will be held, the members going in a body to Rosbrook's hall at the conclusion of the meeting to attend the Elks' bazaar.

Attempted Hold-up of Passenger Train Blocked By Its Crew

By Associated Press Leased Wire
Denver, Colo., Nov. 17.—Police are searching today for armed men who last night attempted to hold up and rob Union Pacific passenger train No. 104, eastbound at Sandow, six miles east of Denver. Eighteen shots were fired by the bandits and members of the armed train crew. One of the bandits is believed to have been wounded. Three of the bandit party, believed to have numbered six men, flagged the train and as it pulled to a stop they approached the baggage car. A brakeman, armed with a shotgun, jumped from the train and when the bandits opened fire he and others of the train crew replied. The highwaymen escaped in a waiting automobile. In the meantime Rock Island train No. 6, bound for Kansas City and Chicago, over the same tracks, came up behind. A flagman stopped the train in time to avert a collision.

ROCKFORD TEAM DESERVED WHAT THEY GOT—FAN

Dixon Football Follower Replies to Register-Gazette.

The walls of the Rockford Register-Gazette's sporting writer over the defeat of the "706" football team by the Dixon American Legion eleven, as reproduced in The Telegraph last evening, bring from one fan who has seen all of the local games, the following protest:

Editor Telegraphs—The item in last night's issue of your paper regarding the visit of the Rockford 706 football team to this city merits a reply.

I have witnessed every game played by our Legion team and most fans will agree with me that we have never witnessed a game that required as much warning as did last Sunday's.

The referee did not see half the rough stuff the Rockford boys tried to pull and it finally got so bad that the spectators could not help but hoot and hiss the visitors. You invariably see the same crowd at all of the games and at no other contest has the visiting team been hooted and hissed as they were at last Sunday's game.

Burns of the Rockford team was put out of the game not because he hurled himself in front of a Dixon runner, but because he deliberately tackled Dixon runners with both arms around the neck. He was warned several times before he was ordered out of the game. If the sport critic from the Rockford Register-Gazette will visit the other teams which have played here I am sure he would be convinced that they were treated fairly and would be glad to come to Dixon again to play at any time.

Ramsey, Ill., Paper Praises Mr. Sharp

The Ramsey, Ill., News Herald has the following concerning O. E. Sharp, the new president of the Dixon Casket Manufacturing company:

O. E. Sharp left Wednesday to assume active duties as president of the Dixon (Ill.) Casket Co. He has had the position in mind for some time, but only lately accepted it, when his business affairs here were straightened out. We predict a very prosperous future for Mr. Sharp and his company, a business he has given his personal attention to for a number of years with much success. He expects to travel quite a lot in getting acquainted with his customers and opening up new territory. Mr. Sharp says if necessary he can take his coat off and work right with his help, and we feel that going into the business with such a fine spirit he is bound to meet with success. He will retain his residence in Ramsey until Spring, when he will move to Dixon.

First Woman on a Coroner's Jury

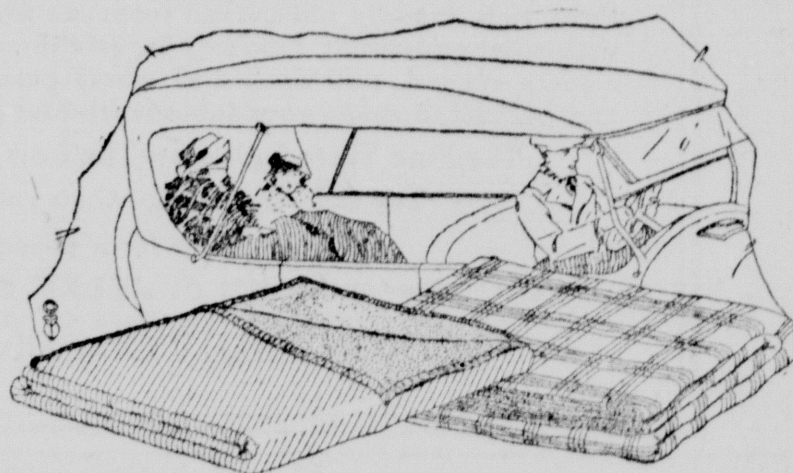

Freeport, Ill., Nov. 16.—The distinction of being the first woman to serve as member of a coroner's jury in Stephenson county goes to Mrs. Gretchen Schmacker, wife of August Schmacker, 228 Elk street.

Mrs. Schmacker was a member of the jury that this morning investigated the death of Anna Braun, an infant, who was found dead in bed. The child died of natural causes.

President-elect is Asked to Pay Visit to Mexico Seaport

By Associated Press Leased Wire
Brownsville, Texas, Nov. 17.—President-elect Harding's reply to the invitation to visit Mexico during his southern trip probably will be determined upon in the next twenty-four hours as he travels by special train from Brownsville to New Orleans. Leaving this place at 10 o'clock this morning at the end of a 9 day vacation, Senator Harding was to reach New Orleans at 10 o'clock tomorrow morning and during a five hour stay was to deliver an address before the New Orleans Association of Commerce. If his steamer's course is to be changed to permit a call at Vera Cruz, an announcement is expected before he reaches the Louisiana port. There were no indications before his departure, however whether he would accept the invitation which came to him yesterday from Mexican officials.

The Supreme Globe Range

is said to be the most beautiful Range ever built.

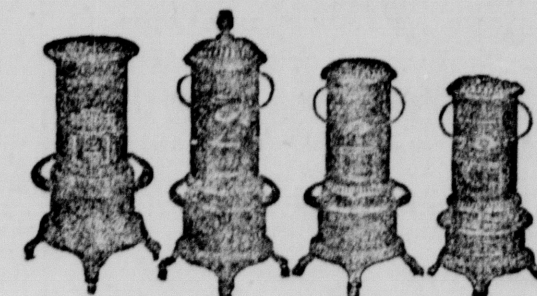

But its good looks is only a part of its many good qualities. Let us show you its distinctive, practical features and how generous in size, finish, etc., everything about it is, and why it will never rust out. Made by master stove builders for the woman who wants the very best there is in efficiency, durability, beauty and sanitation.

A STOVE LIKE GRANDMOTHER USED TO USE

This good plain Stove, with its beautiful smooth castings, harks back to the days of simplicity and economy of our ancestors. We guarantee it to be absolutely satisfactory in its working qualities and in durability. To the woman who cares not for the elaborateness of the big Range and who does not care to invest so much this stove appeals. The fact that we have sold over 300 shows for itself. Made entirely of cast iron, not steel. Several sizes—\$40.00 and upwards.

New York.—To rid the town of undesirable residents, Frank Vanderlip, former president of the National City Bank of New York, has purchased the entire village of Sparta, N. Y. Sparta, a town of 200 inhabitants, adjoins the

fashionable colony of Scarborough-on-Hudson, where Vanderlip lives. Much complaint had come from the wealthy residents of Scarborough about Sparta. So Vanderlip solved the problem by buying the entire village!

He says he'll gradually weed out the undesirable, build modern tenements and "get some nice people" to settle there. The picture shows some of the ramshackle dwellings of Sparta. Inset, Vanderlip.

CLEANING HOUSE IN ATHLETICS IN STATE UNIVERS'Y

Gambling and Speculating Will Be Eradicated.

By Associated Press Leased Wire
Urbana, Ill., Nov. 17.—Director Huff of the University of Illinois board of athletic control today began a special campaign against gambling and ticket speculation. Steps were taken to assure football against the infringement of the monopoly of tickets by unscrupulous seat exploiters and Illinois-Ohio State football game and future Illinois contests free from professional sporting interest.

As a measure to keep the University's football atmosphere pure, Director Huffman requested today that the University council of administration expel any student found guilty of "speculating."

Original purchasers are to be held responsible for their tickets, which, if found in the hands of speculators will result in those original purchasers being barred from purchasing tickets in the future," he said.

The board has agreed to blacklist from ticket purchasing hereafter persons known to have wagered money on the contest.

Director Huff's first striking coup of his campaign was made today when he secured the promise of cigar stores, pool rooms, and other establishments not to be stakeholders for better.

Open Hearing on Irish Question

By Associated Press Leased Wire
Washington, Nov. 17.—Hearings on conditions in Ireland with prominent officials of that country among those to appear were to open here today before a commission of the Committee of 100 on Conditions in Ireland. Witnesses in sufficient number to occupy the commission's time for three days already have been granted permission to testify according to William Macdonald, secretary, and the British embassy has been requested to be represented by counsel or any official spokesman. Similar action was taken with respect to Eamonn De Valera, president of the Irish republic.

The commission has stated that it hoped only to establish the facts in the case of Ireland, and to lay these facts before the world. It will attempt to develop the contentions of both sides to the controversy and grant hearings to all who are familiar with conditions in Ireland or who lately have made personal studies of the situation, it was added.

"Members of the commission elected as a high court," by the committee of 100 include Raymond Robins, Chicago; Joseph W. Folk, St. Louis; Frederick C. Howe, Washington; Alexander P. Moore, Pittsburgh; Jane Addams, Chicago; James H. Maurer, president Pennsylvania Federation of Labor and Senator Walsh of Massachusetts.

WHY THAT LAME BACK?

What morning lameness—those pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will not make a mistake by following this health resident's example.

N. W. Beal, 420 College Ave., says: "For a long time I suffered from kidney troubles and it showed itself in different ways. I had rheumatic twinges and my back and limbs were stiff and lame. When I bent over, I could hardly straighten and I was greatly annoyed. I got Doan's Kidney Pills at Public Drug & Book Co. drug store and they gave me wonderful relief in a short time. They finally entirely freed me of kidney complaint."

Lasting Results.
Over five years later, Mr. Beal said: "I have been free from kidney trouble since I used Doan's Kidney Pills. I am glad to again give them my endorsement."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Beal had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Rosy Cheeks & Satin Skin

Because of her rosy cheeks and satin skin a woman attracts the admiration of all men. When the young woman peers in her glass, she may see pimples and blotches and she immediately goes to the drug store for paint, powders and beauty creams, when she should go there for a blood medicine and stomach alternative known as "Golden Medical Discovery." This vegetable tonic and blood alterative clears the skin, beautifies it, increases the blood supply and the circulation, while pimples, boils and eruptions vanish quickly. Ask your nearest druggist for Dr. Pierce's Golden Medical Discovery in tablet or liquid form or send 10c. for trial package of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

Ohio Formations Score Against Ill.

By Associated Press Leased Wire
Champaign, Ill., Nov. 17.—Using Ohio State formations, the Illinois freshman team gave the varsity a hard struggle and succeeded in putting over two touchdowns. The freshmen were attired in scarlet representing Ohio. Majors and Dawson, yearlings, showed remarkable form. The two teams battled until dark, after which Zupke brought out the ghost ball and turned on the flood lights.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the griping misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's! Putnam, pastor of that church office.

A 25-cent bottle of delightful "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating "beauty-tonic" gives to thin, dull, fading hair that youthful brightness and abundant thickness—All druggists!

Giants' Infield to Be One of Strongest

By Associated Press Leased Wire
New York, Nov. 17.—A shift in the infield of the New York Nationals for next season was announced today by Manager John J. McGraw. Joe Rapp, purchased yesterday from St. Paul American Association team will be used at third base, McGraw said, and Frank Frisch will be switched to second.

Combined with Shortstop Bancroft and First Baseman Kelly, the infield will be the strongest he has had since New York won the pennant three times in a row, he claimed.

AMUSEMENTS

GRAND OPERA.
Chicago's grand opera season will soon be in full swing, with prospects of being the most brilliant in the history of the lyric drama. The home season of the Chicago Opera company will open Wednesday night when Gino Marinuzzi's stormy opera of the early French revolution had its American premiere and local music lovers were accorded opportunity to pass judgment upon the work of Executive Director Herbert M. Johnson, chief artistic aide, which hitherto has been heard only in Rome and Buenos Aires.

On the eve of the opening Director Johnson will make an analysis of the operatic outlook in these words:

"We have every reason to anticipate the greatest season in the history of the Chicago Opera Association. The subscription list is fairly satisfactory—not as large as we should like nor as we expected in view of the artistic values the company has to offer, but it is nevertheless very substantial. While it is regrettable that we cannot induce more people to realize that the subscription is the backbone of opera, we anticipate that those who failed in that respect will give the opera support through their patronage from week to week. If civic pride is not sufficient inducement to build up the subscription list to a satisfactory point, then we can look for generous support for the current offerings on the sole ground of merit, for I have no hesitancy in saying that the personnel constitutes the greatest company ever assembled."

Girls Must Wear "More" Suit When in Water Contests

By Associated Press Leased Wire
New Orleans, La., Nov. 17.—Girl swimmers who compete in Amateur Athletic Union contests in the future must wear swimming suits that come higher about the neck and must be cut with due allowance for shrinkage under a rule adopted last night at the final session of the annual convention of the union here. Judge Farlow S. Weeks, chairman of the legislative committee described the low cut and tight fitting suits worn by American girls in the Olympic games and said these girls had been criticized by the Europeans.

The convention yesterday elected Robert S. Weaver, of Los Angeles, president and awarded the 1921 meeting to Chicago. What was viewed as a victory for the "insurgent forces" within the A. A. U., was scored in the passage of a resolution calling for an investigation of charges that American athletes at the Olympic games were badly treated.

SCHOOL TEACHER SAYS TANLAC HAS NO EQUAL

Nervousness and Indigestion Overcome and She Has Gained Twenty Pounds in Weight, States Miss Baker.

"There has been such a change in my health here lately that everybody in the neighborhood is talking about it," said Miss Nellie Baker, of 162 Liberty street, Freeport, Ill., in relating her experience with Tanlac the other day.

Miss Baker is a popular teacher in the schools at Elena, Ill., and among other benefits derived from Tanlac she reports a gain of twenty pounds in weight.

"I am so delighted with what Tanlac has done for me," she continued, "that it gives me the greatest pleasure to tell others suffering like I did how they may get relief. I was in a badly run-down condition for two years. My appetite left me and even the little I did manage to eat caused me to suffer terribly from indigestion.

"Sometimes my head ached day and night for days at a time. My nerves were so completely unstrung I

couldn't stand the noise of people walking across the room, and often I shut myself up in my room, away from everybody in order to keep away from noise. There was many a night when I didn't close my eyes in sleep.

"I fell off in weight until I was hardly more than a shadow of what I had been and got so weak I was barely able to drag myself about. I tried so many medicines with disappointing results that I became completely discouraged. But I got so interested in reading the wonderful statement appearing in the papers about Tanlac that I decided to give it a trial, and I now see it was the best thing I ever did.

"Since taking just a few bottles of this medicine I have a splendid appetite, and no matter what I eat I never feel a sign of indigestion. I have gained twenty pounds in weight, am entirely free from nervousness and sleep like a child at night without waking up once. The truth is I am just in the best of health and feel good all the time. My friends are all the time asking me what I have been taking to make me look so much better, and of course I tell them Tanlac. I expect to praise it as long as I live."

Tanlac is sold in Dixon by Public Drug & Book Co., and by the leading druggist in every town.

RHEUMATISM

A Remarkable Home Treatment Given By One Who Had It

In the Spring of 1893 I was attacked by Muscular and sub-acute Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, some of them 70 to 80 years old, and results were the same as in my own case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of getting rid of your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

ROCHELLE

The American Legion won a closely contested game of football from the Rockford Specials on the local gridiron here Sunday afternoon, 10 to 0. The Rockford lineup was strengthened by several R. A. C. players.

Berve was in the limelight for Rochelle negotiating a duck kick from the thirty yard line during the first half, and grabbing a forward pass hurled by a Rockford back in the final quarter for a thirty yard sprint for a touchdown. He added the final point by kicking goal. A slippery gridiron handicapped both teams and spoiled the aerial game.

Next Sunday Rochelle goes to Dixon for a return game with the Legion team.

Rochelle is saddened by the news of the death of Miss May Cratty, which occurred in Augustana hospital in Chicago, at 6:30 o'clock Sunday morning of pleuro-pneumonia. Miss Cratty graduated from Rochelle high school in the class of 1911, was a graduate nurse, and served overseas with the A. E. F. during the World War. She was stricken with the sleeping sickness, while serving in the United States Army Hospital in Philadelphia several weeks ago, but after a partial convalescence was allowed to come home in a weakened condition. She suffered a relapse but recuperated, visited her brother, Perry and family at Belvidere, and was visiting friends in Chicago, when taken ill again. She was 35 years of age.

11 Hens Idle; Now Lay 221 Eggs A Month

Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, I was getting 1 or 2 eggs every other day. The next month using Don Sung, my 11 hens laid 221 eggs. I almost quit raising chickens, but now I will raise as many as I can."—Mrs. F. C. Young, Bellefonte, Pa.

Don Sung can easily start your hens laying and keep them laying, even in cold winter. To prove it, accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given in the feed, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and gets the eggs, no matter how cold or wet the weather.

You can obtain Don Sung from your druggist or poultry remedy dealer, or send \$1.04 (includes war tax) for a package by mail. Burrell-Dugger Co., 214 Columbia Bldg., Indianapolis, Ind.

GRAND JUNIOR WARDEN.

Springfield, Ill., Nov. 16.—From a field of eleven candidates John F. Sylita of Chicago, was this morning elected junior warden of the grand encampment of the uniformed order of Odd Fellows.

His election to this stepping stone office on the second ballot ended the only real contest in the grand encampment session which will end this afternoon, when the grand lodge, and the Rebekah state assembly will open. Other officers elected were as follows:

Grand Patriarch, O. C. Foreman, Carlyle; grand high priest, C. W. Byers, Springfield; Grand senior warden, Forest B. Gore, Carlinville; grand

scout, Sam J. Baker, Olney; grand treasurer, Charles D. Merritt, Salem; grand representatives to sovereign grand lodge, Samuel E. Erickson, of Chicago, the outgoing grand patriarch, and Huntington James of Kankakee.

WANT HIGHER RATES.

Springfield, Ill., Nov. 16.—Applications of twelve subsidiary companies of the Illinois Traction system for increased electricity, gas and street railway rates were set for hearing on Wednesday morning, Nov. 24, by the State Public Utilities commission this morning.

These companies were granted increases in 1918 which were to extend until six months after war ended, and peace was proclaimed by the president. The rates are still in effect, and the companies, opposing the provision demanding a return to pre-war rates seek permission to charge an additional rate. These utilities companies are in Bloomington, Cairo, Clinton, Dan-

ville, Decatur, Galesburg, Jacksonville, Quincy, Urbana, Champaign and Madison county. The Northern Illinois Light & Traction Co. is also included.

TO MEET IN CHICAGO.

New Orleans, La., Nov. 16.—The Amateur Athletic Union in annual session here today awarded the 1921 convention to Chicago.

Sure Relief

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST. Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have allow skins, blood disorders and sickly complexions are urged to get a quartet pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

A new kind of overshoe for farmers

The "U.S." Walrus: watertight as a rubber boot—as warm and easy to slip on as an arctic

THE combination you have always needed—something to keep your feet dry and warm and yet easy to slip on and off! Here it is—the new U. S. Walrus.

This new overshoe slips on and off easily over your leather shoes. Its warm, fleecy lining keeps your feet comfortable in the coldest weather. And its smooth rubber surface can be washed off as quickly and cleanly as a boot.

The comfort and convenience of this new overshoe are backed by real strength. Made by the oldest and largest rubber manufacturer in the world, the U. S. Walrus is built for the roughest wear. Its sole consists of five layers of the finest rubber. All other points where the strain comes are reinforced.

Ask your dealer to show you the U. S. Walrus. After you've worn them you'll

realize why farmers everywhere are buying them.

Other types of "U. S." Footwear—built for rough service

U. S. Boots have the wear and comfort which the accumulated improvements of 74 years have given them.

U. S. Booties lace on over the sock like a leather shoe. You can wear them all day long in the wettest weather. Your feet will stay dry and comfortable.

There is a U. S. model for every need—arctics, rubbers, "overs." Every one has been designed by experts—every one is

HE DID! LET ME COUNT IT FOR GOOD LUCK!

THERE IS SIXTY DOLLARS THERE - I BET HIM A HUNDRED TO SIXTY - YOU KNOW YOU ALWAYS HAVE TO GIVE THAT BIRD ODDS!

YOU REMEMBER YOU PROMISED TO GO FIFTY FIFTY WITH ME IF YOU WON THIS BET SO I'LL JUST TAKE MINE OUT!

I KNOW BUT YOU CAN'T TAKE FIFTY OUT - I BET A HUNDRED BUT ONLY WON SIXTY - WE GO FIFTY FIFTY ON THE AMOUNT I WON!

YOU SAID YOU WERE GOING TO BET A \$100 AND WOULD GO FIFTY FIFTY WITH ME IF YOU WON AND THAT'S ALL I KNOW ABOUT IT!

AW, COME ON NOW, HELEN! QUIT YOUR FOOLIN' - THIS AIN'T RIGHT - ALL I GET OUT OF THE SIXTY IS TEN BUCKS -

YOU'LL HAVE TO FIGURE THAT OUT FOR YOURSELF - ALL I KNOW IS FIFTY FIFTY ON A HUNDRED IS FIFTY!

More than sixty years ago, Gail Borden instituted in the public consciousness the possibility of a national "guaranteed" milk.

The formulation, no less than the maintenance of his code of purity—stricter than the legislation now enforcing it—commends the Borden Milk Products so highly to the nation today. For three generations the co-workers of this organization have labored to uphold their trust.

The Borden Service covers every milk need.

Decay-Proof Fence Posts

"My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime."

This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years.

CREOSOTED Yellow Pine POSTS

Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay.

Send at once for Free Circular regarding "The Post Revolution"—and learn how to end all your post and fence troubles and save from \$40 up each year now spent in repairs and replacements.
